### Stickball Tiny Chair Show

Selected Work, 2026

### SCAD Furniture Department

Most Outstanding Student, 2022

### SCAD Kravet Design Sprint

Runner Up, 2021

### 2South Exhibit

Selected Work, 2021

## EXPERIENCE

### Loubier Design Millwork Designer

February 2025- Present

Philadelphia PA

- Create detailed custom cabinetry and millwork designs for high-end residential and commercial projects by translating architectural and interior design concepts into fabrication-ready documentation.
- Responsibilities include site surveys, 3D modeling, technical drawing production, CNC file preparation, material coordination, and collaboration with architects, designers, and fabrication teams.
- Proficient in Cabinet Vision, SketchUp, Rhino, and Layout, with experience developing installation packages, build sheets, and custom fabrication solutions including 3D-printed jigs.

### Aardvark Studios Design Engineer

January 2024- February 2025

Philadelphia PA

- Created detailed technical drawings, custom part lists, and bills of materials for experiential design projects, specifying materials, hardware, and fabrication requirements.
- Produced shop drawings exclusively in SolidWorks and prepared files for CNC machining, laser cutting, and 3D printing.
- Collaborated with onsite fabrication teams to resolve build issues and ensure design intent was maintained through production.

### FKB Studios Junior Design Engineer

October 2022- January 2024

Philadelphia PA

Assisted in fabrication drawings and component documentation. Supported modeling, material takeoffs, and digital fabrication file preparation. Contributed to revisions and onsite installation coordination.

## EDUCATION

Savannah College of Art and Design, 2018-2022

B.F.A in Furniture Design
